PROFESSIONAL SUMMARY

Creative and detail-oriented **UX/UI Designer with 3 years of experience** in crafting intuitive, user-centric digital experiences for complex enterprise applications. Expert in **transforming high-level requirements into interactive prototypes**, scalable design systems, and data-driven interfaces. Proven track record of collaborating with cross-functional teams to align design strategy with business objectives. Passionate about accessibility, information architecture, and leveraging a **strong technical background in front-end technologies** to ensure seamless design-to-code handoffs.

EXPERIENCE

Digitus Business Solution

Nov 2025 – Present

Junior Consultant / Bengaluru, India

- Spearheaded the **end-to-end design strategy** for AI-driven dashboards, translating complex data models into intuitive user flows and high-fidelity prototypes.
- Conducted **user research and usability testing** to iterate on interface designs, resulting in a 25% increase in user task completion speed.
- Established and maintained a **comprehensive Design System**, ensuring visual consistency and reducing front-end development time by 30% through reusable component libraries.
- Acted as the **Design Subject Matter Expert (SME)**, mentoring cross-functional teams on accessibility standards (WCAG) and user-centric design principles.
- Facilitated **stakeholder workshops** to align business goals with user needs, delivering scalable design solutions for enterprise-level clients.

Ideagensys

Sep 2023 – Nov 2025

Software Engineer / Bengaluru, India

- Conceptualized and designed **interactive data visualizations** and complex dashboards using Figma and Adobe XD, focusing on information architecture and hierarchy.
- Transformed technical requirements into **wireframes, user journeys, and low/high-fidelity prototypes** to communicate design intent to stakeholders.
- Collaborated closely with engineers to ensure **pixel-perfect implementation** of designs, maintaining the integrity of the original UX vision.
- Optimized mobile responsiveness and cross-platform experiences, significantly improving user retention for client-facing web applications.
- Participated in **Agile sprints**, contributing to design critiques and rapid prototyping to meet tight project deadlines.

Trueadapt

May 2023 – Sep 2023

Software Engineer / Bengaluru, India

- Developed **visual assets, iconography, and layout grids** for responsive web applications, enhancing the overall brand aesthetic.
- Assisted in **A/B testing** and heat-map analysis to identify user pain points and optimize landing page conversions.
- Integrated RESTful API data into visual mockups to simulate real-world data interactions for stakeholder presentations.

TECHNICAL SKILLS

Design Disciplines: User Interface (UI) Design, User Experience (UX) Design, Wireframing, Prototyping, Information Architecture, User Research, Usability Testing, Design Systems.

Design Tools: Figma (Advanced Prototyping), Adobe Creative Suite (XD, Photoshop, Illustrator), Framer, Sketch, Miro.

Technical Knowledge: HTML5, CSS3 (Tailwind), JavaScript (ES6+), React.js (Design-to-Code workflow), Git, Jira.

CERTIFICATIONS AND ACHIEVEMENTS

- Liferay BEWL** (Building Enterprise Websites with Liferay)
- Two-time Sport Award Winner** at Digitus, recognized for outstanding contribution to UI design across project.
- Secured **1st Place in Walkathon** at Digitus, demonstrating discipline and goal-oriented mindset

EDUCATION

SRM University, Delhi, India

2021 – 2023

Master of Computer Applications (MCA)

Govt. Autonomous College, Bhawanipatna, India

2018 – 2021

Bachelor of Computer Applications (BCA)
